**MRA** **RAILROAD EMERGENCY CONTACT NUMBERS**  
MICHIGAN  
RAILROADS  
ASSOCIATION

To improve **highway-rail crossing safety**, the FRA now requires each railroad to have an **Emergency Notification System (ENS)**, allowing emergency response center staff to identify crossing locations and railroad contacts for reporting safety problems and emergency situations.

Look for a blue-and-white emergency notification sign.

The ENS sign should be posted near the crossing and clearly visible.

It includes the name of the railroad, the railroad's emergency contact number, and the USDOT National Crossing Inventory Number.

Using the information on the ENS sign is the quickest way to notify the railroad.
